1. **Top Choice** - You have highest degree of interest and Skills to pursue this career path. You will definitely excel in the fields mapped to this career path.

Work Nature

About Career

Do you want to cure people of their illness? Does the thought of providing medical help to people give you satisfaction? If yes, you are the best person to be a doctor and serve people with your services.

A doctor is a certified medical practitioner who diagnoses and treats you for your illness. They play an essential role in guiding their patient to maintain a healthy body and mind. A doctor has to be very alert, sympathetic and well organised in order to deliver successful results. Apart from treating, the doctor also informs his patients about the precautions to be taken to avoid illness, records their medical history and also interprets the diagnostic tests done by the medical technicians. There are numerous specializations that can be done in this field after M.B.B.S. studies.

For example, cardiologist (heart specialist), Dermatologist (skin, hair, and nails doctor), Neurologist (brain doctor) etc.

Work Nature

- Examines or conducts tests on patient to provide information on a medical condition.
- Prescribes or administers treatment, therapy, medication, vaccination, and other specialized medical care to treat or prevent illness, disease, or injury.
- Monitors patients' condition and progress and re-evaluates treatments as necessary.
- Explains procedures and discusses test results on prescribed treatments with patients.
- Operates on patients to remove, repair, or improve the functioning of diseased or injured body parts and systems and delivers babies.
- Collects, records, and maintains patient information, such as medical history, reports, and examination results.
- Refers patient to medical specialist or another practitioner when necessary.
- Advises patients and community concerning diet, activity, hygiene, and disease prevention.
